- <http://uk.linkedin.com/in/danilovizzarro>

PROFILE

"Information technology and business are becoming inextricably interwoven. I don't think anybody can talk meaningfully about one without the talking about the other." - Bill Gates

As an IT professional, I have had a multitude of experience throughout my tenure in Information Technology, Project Management, Data Migration and System Integration.

For 15 years, I have been immersed in implementing IT systems and web solutions across Europe, US and Asia.

Utilizing problem solving, analytical thinking skills and communication, I have deep insight into the role that system and software development play in the organization and a keen eye for potential ideas, which can improve existing methods.
